RE:THINK

Rethink everything you've thought about light. Rethink the linear. Rethink precision. Rethink mountings. Rethink optics.
Rethink accessories. Rethink your reality. Rethink perfection. Think Lumenpulse.

Pure Thought

Solid, definitive, and beautiful. The Lumenfacade Pure is a rationally designed luminaire wherein technology, taste, and ingenuity converge.

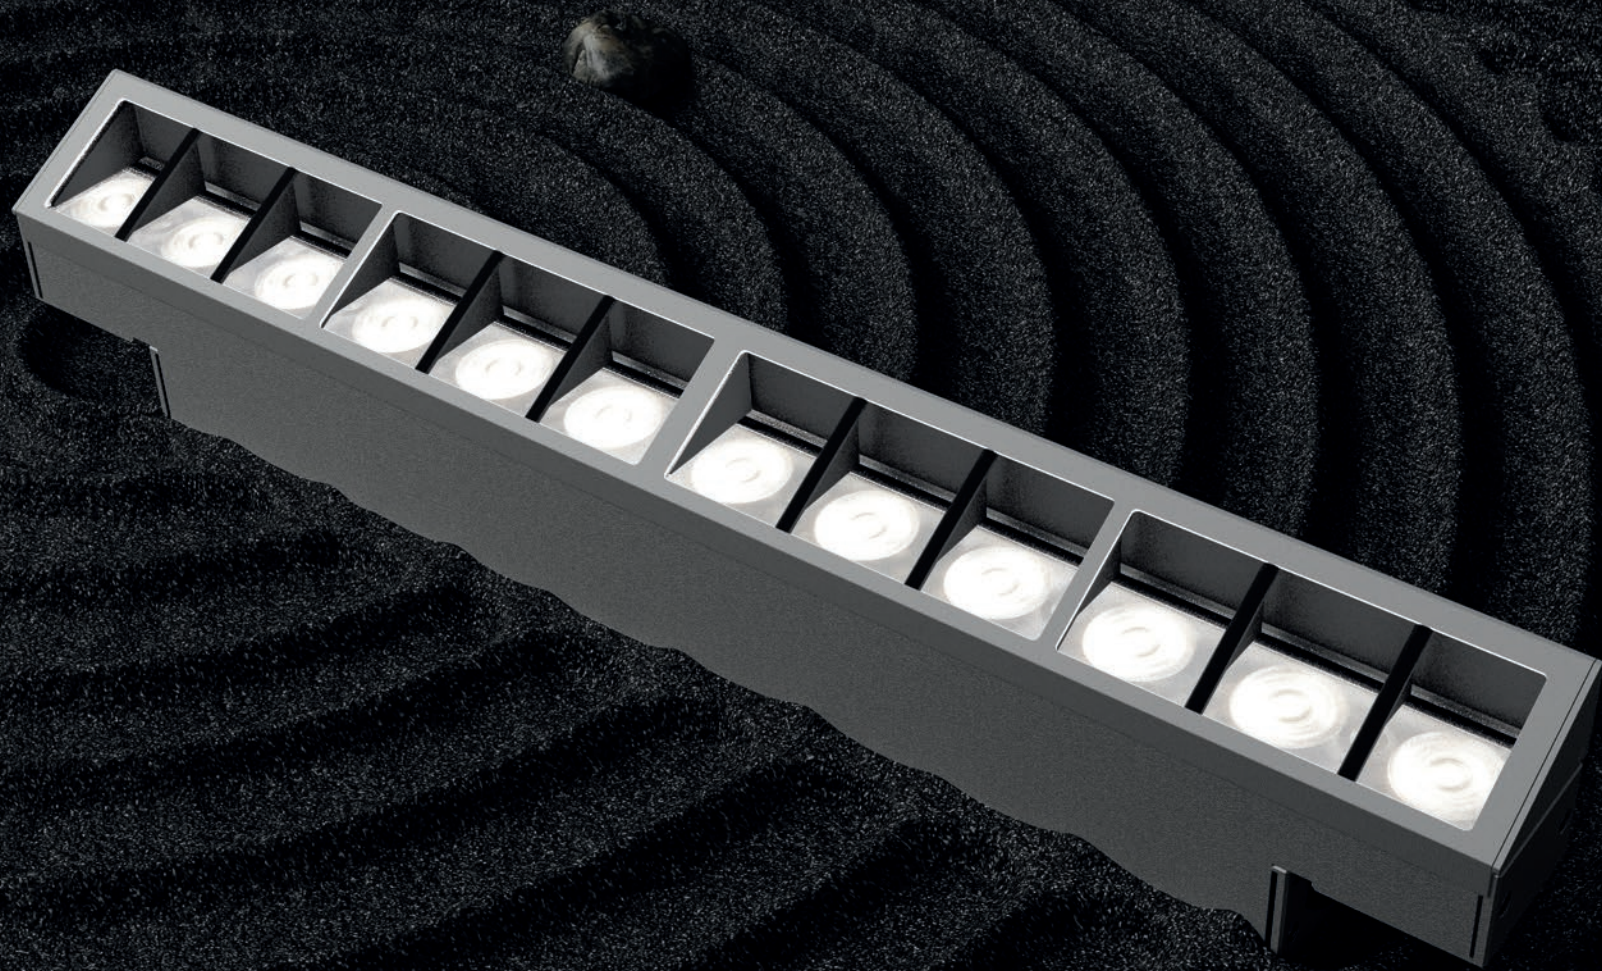

Pure Design

A clean, modern design with true 1' incremental lengths and methodical engineering that emphasizes ease of installation, elegance, quality, and performance.

RE:ALIGN

Pure Zen

RE:SHAPE

Options include mountings that are continuously adjustable or calibrated in six-degree increments. Mounting arms act as a cable management system and allow for vertical installations: instead, set and secure the fixture on or off. need to slide the fixture on or off. wide range of beam spreads. No Mountings are optimized for a

RE:SHAPE

A close-up, high-contrast photograph of a black metal lighting fixture. A thick black cable is plugged into a connector on the side of the fixture. The fixture has a textured, industrial look with several screws visible. The background is dark and out of focus.

RE: CON NECT

Pure Presence

With easy-connect runs and a profile attuned to any architecture, the Pure grants high-performance lighting exactly where you need it. Quick-connect locking cables ensure proper, speedy installations. For less linear designs, there are molded T-junctions for non-straight runs.

RE:SEARCH

Your search is over. Cutting-edge research and proprietary technology have created a luminaire whose array of precision optics and three available outputs put light exactly where it's needed no matter the application.

RE:FRAME

Reframe the canvas you're painting with new Ceiling Asymmetric and Narrow Asymmetric beam spreads that broaden your linear applications. Frosted and half-frosted lenses come as standard options. Optimally designed, seamless accessories ensure precision optical performance.

The Lumenfacade Pure gives precise, consistent CCT calibration across your entire project, giving you a constant and uniform aesthetic that lights each architectural application to its fullest potential.

3000K

2700K

Designed from the inside out with one thought in mind: pure, redefined light. Top-tier, durable-beyond-their-purpose metals, glass, and electronics. Every component has been created to perform its purest function. It is our experience that the finest materials give optimum awe.

Pure Reliability

RE:SET

Built to withstand weather, vibrations, and impacts, the Pure is durability personified. Rethink the possibilities. Rethink the force of pure sophistication. Rethink the how, when, where and the answer will be, Lumenfacade Pure.
